SUBJECT: EPA and CDH Approval with Modifications of OU2 Subsurface IM/IRAP Schedule

TO: Erich Evered, Director
Environmental Restoration
EG&G Rocky Flats, Inc.

Attached is the EPA/CDH letter approving the subject document schedule with modifications. The modifications remove DOE HQ review times for the Responsiveness Summary and the Final IM/IRAP/EA.

We are attempting to resolve the issues of EPA/CDH dictating schedules and removal of HQ review times.

If you have any questions, contact Scott Grace at extension 7199.
